Classroom Wish List & Thank You Note Editable Google Sheets File

Here's how to use these files. Click the links below to access each file in Google Drive. You can save these to your own Google Drive account.

Google will ask if you want to make a copy. Click "Make a copy".

If you would like to make more than one slide (or page), go to "Slide" then "Duplicate slide", and it will make a second page. Repeat for more pages/slides.

Then just click on "Type Here" and type in whatever text you want. You can type in your name after "Thanks for your donation to". The Thank You Note works the same way.

If you'd like, you can change the font to something else.

Once you're finished typing and ready to print, just click "File" then "Print".
