SEA TURTLE

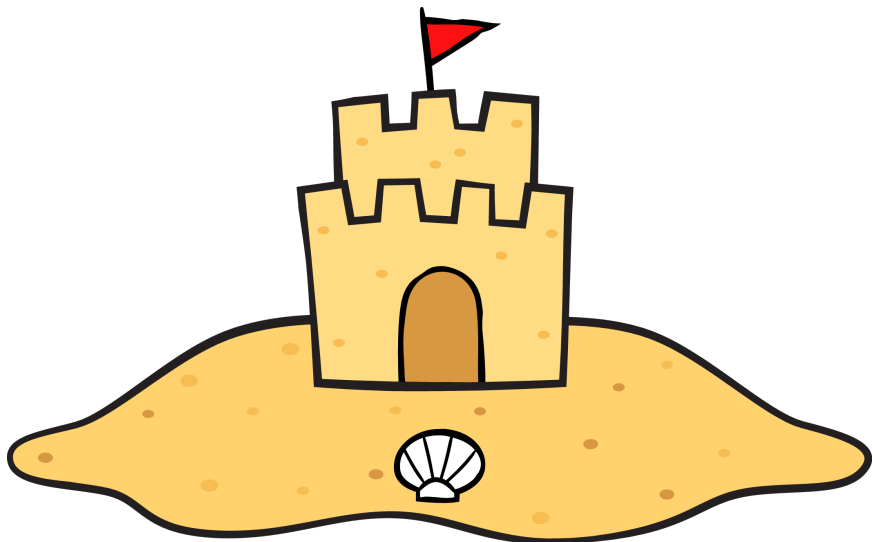

Life Cycle

A collage illustrating the sea turtle life cycle. It includes a circular diagram with stages: Hatchlings (a baby turtle in an egg), Sea Turtle Life Cycle (a central diagram), and Adults (a large sea turtle). Text boxes describe the process: 'The baby turtles wait until right time when temperature drops and there are no predators around. Then they crawl out to sea and swim in the water.' and 'Adult turtles are fully grown. Female turtles swim back to the place where they were born and lay eggs in the sand.' There are also sequencing cards and a PreKinders logo.
