Most issues can be resolved by updating Adobe Acrobat Reader on your computer.
When you only want to print one page, go to that page, put your cursor on that page, click CTRL-P, and select "current page". If you want to print just certain pages, but not others, click CTRL-P and type in the page numbers you want.

DIRECTIONS

These true/false cards are great for a story response/comprehension activity. They can be used during your Large Group Literacy time after reading the story. They could also be used during Small Group.

In each set, the first 5 cards are true and the last 5 cards are false.

Print the true/false cards, cut along the line, and laminate if you choose. When I use these for Large Group, I often choose not to laminate because of the glare from the room's lighting.

How to Use These Cards:
Draw a line on your whiteboard, write "true" on one side and "false" on the other. (Like a T-chart.) For a visual, you could also draw a smiley face beside the word "true" and a sad face beside "false". You could either stick them directly onto the board, or just stack them into two groups on the whiteboard tray.

Shuffle the cards so the true and false cards are in random order. Take one card, show it to the class, and read it. Have the class decide which side the card should go on.

Or, use the cards the same way during Small Group. Place the cards into two piles as the group decides where they should go.

Optional: Print out the True/False Response Cards, give them to each child in the group. Have them hold up the correct card to show their answer.
